After a visit to the nearby Living Museum of the Damara, we proceed to the Petrified Forest - a geological phenomenon depicting the creation and metamorphosis of wood into stone amongst some of the oldest landmasses in the world. Today is devoted purely to the abundant wildlife found in the Etosha National Park, which surrounds a parched salt desert known as the Etosha Pan. The park is home to 4 of the ‘Big 5’ - elephant, lion, leopard and rhino.  
  
Despite the size of the Etosha National Park, only the southern edge of the pan is accessible to visitors. Game viewing in the park is primarily focussed around the waterholes, some of which are spring fed and some supplied from a borehole, ideal places to sit and watch over 114

different game species, or for an avid birder, more than 340 bird species.
